Portfolio: https://namra-acharya.github.io/namra_portfolio/

ABOUT ME

Computer Science undergraduate focused on Machine Learning, EEG signal processing, and Brain-Computer Interfaces, with hands-on experience in ML pipelines, feature engineering, model evaluation, and neural-signal analysis. Proficient in Python, scikit-learn, MNE, NumPy, Pandas, and SciPy.

EDUCATION

B.Tech – Computer Science & Engineering

ICT, Ganpat University | 2024–2027 | CGPA: 8.81

Diploma – Computer Engineering

GTU | CGPA: 8.98

PROJECTS

Motor Imagery EEG BCI | Python, MNE, SciPy, scikit-learn

- Built an EEG preprocessing and feature-extraction pipeline for motor imagery classification.
- Developed ML-based neural decoding for left/right motor imagery.

Automated ML Pipeline | Python, Pandas, scikit-learn

- Built an end-to-end pipeline for data preprocessing, feature engineering, and model training.
- Automated encoding, missing-value handling, and model comparison.

IRIS – AI Desktop Assistant | Python, APIs, Automation

- Built a modular AI assistant integrating LLM APIs with desktop automation.
- Implemented application control, task execution, and keyboard/mouse automation.

SKILLS

Languages: Python, SQL

ML: scikit-learn, Regression, Classification,
Feature Engineering, Model Evaluation

Data: NumPy, Pandas, SciPy, Matplotlib

BCI: MNE, EEG Processing, FFT, PSD, Motor
Imagery, CSP

Tools: Git, REST APIs, Automation

CERTIFICATES

- Simplilearn – Artificial Intelligence Fundamentals
- Simplilearn – Data Mining
- IBM – Python for Data Science and Development
- DataCamp – Python Programming
- IBM – Docker Essentials: A Developer Introduction
- IBM – Java Programming Fundamentals
